

Pet Week 2003

To all groups, munches and other interested people

Hello from Bremen/Germany!

From August 17. - 24., 2003, our annual Pet Week will take place, the international vacation week for human pets and their owners, trainers or drivers.

We invite you – your partners and members - to join us at the Danish BDSM farm and to enjoy life for a week as appropriate to your species.

This year we already celebrate our fifth anniversary, which we want to spice up with a do-it-yourself pony cart workshop as highlight. We will also together with you arrange an inspiring program from introductory workshops to competitions. And as every year, there is plenty of space for everyone to realize her or his personal ideas. So join in and have fun!
